EXPERIMENTS:

Overground Railroad Activity

Do you see any “overground
railroads” where you are?

What systems, networks, and
relationships come together
around you to bring people closer
to liberation? The different pieces
of your overground railroad may
be directly connected, or not.

Use this space to map what you
see now or the dreams you can
envision for the future. You can
focus on one thing — like we did
with food in our example — or
zoom out to showcase a multi-
tude of needs met. Your over-
ground railroad doesn’t have to
look like a map!
